HOCKEY WAR ON ACROSS BORDER

Pacific Coast League Defies National Hockey Association

Victoria, B. C., Oct. 25.—Threats by the president of the Montreal Wanderers will not deter the Pacific Coast Hockey League from securing the best hockey talent in the land. When shown Summe Lichtenstein's statement to the effect that the National Hockey Association has declared war on the league, an officer of the P. C. H. L. stated last evening that the league officials would continue their "raid" until they had secured enough players. Lester Patrick, who is now in the east, left with the intention of securing the best hockey talent available to fill the gaps or improve the teams composing the coast association. Defense men, with a few forwards were his particular aim in the east and that he succeeded in landing the men he is after, the coast officials do not doubt for a minute. Back of Mr. Patrick in his search for players is a fortune. The Pacific Coast league have no great point in their favor, that of winning their own rights. It is necessary to have hockey to keep one's rights in operation, and when there is a million dollars in assets at stake it will be readily seen that Summe Lichtenstein cannot make a cent impression upon the coast league with all his threats. Preparations are now under way for the opening of the local arenas on Thanksgiving day, while the hockey season will get under way a month later. The league has intended that the champions should go east after the world's hockey honors, but a rift in the open rupture between the two hockey associations, it is just possible that this series may now be declared off. It will be a fight to the end as far as the Pacific is concerned, and they are prepared to even farther than the N. H. A. to hold their players.

PLAYERS ON THE STAGE

Marquard, Schaefer and Altmack Before Footlights. New York, Oct. 25.—Among the stars of baseball who will be seen the coming season on the vaudeville stage is "Rube" Marquard, star pitcher of the New York Giants, who has formed an alliance with Blossom Seeley, the actress they will use being written by Thomas J. Gray. Gray is also at work on a sketch to be used by German Schaefer and Nick Altmack, the owners of the Washington team.

Purchased Players—Wash, outfielder, Fall River; Van Dyke, pitcher, Worcester; Bryant, pitcher, Beaumont; Tex, pitcher, Beaumont; Youngstown, O.; Alinsworth, pitcher, Youngstown, O.; Scott, shortstop, Youngstown, O.; Carlstrom, shortstop, Lawrence; Foster, pitcher, Houston.
Options Exercised—Janvry, infielder, Jersey City and Leonard, pitcher, Denver.

MURPHY RUINED HOFMAN.

Serious Charge Against Club Owner By Frank Chance. Chicago, Ill., October 25.—President Murphy's emulity against Artie Hofman cost the Cub baseball team one of the best players on its roster, according to Manager Chance. Hofman was the club's leading hitter and base runner up to the time he had his clash with Murphy in the winter of 1911. For three years he led the team in every department of the game, but after this he was lost interest, grew sour and refused to give the team his best efforts because there were several players who were getting a higher salary. Had Hofman been paid according to his true value to the team he would have been the greatest outfielder in the league, Chance thinks.
"Murphy ruined Hofman when he wanted to give him only a salary of \$3,000 a year after leading the club in hitting and base running," said Chance. "If it had not been for me, Hofman would not have signed for \$5,000. He did it to please me. There were a few players getting more money and he wanted as much and he was entitled to it. Murphy tried to trade him for three months but I opposed it, as I knew he was a great player. He kept at me so long that I finally consented."
"Hofman is not through by any means and if he recovers his health he will give Pittsburgh the greatest outfielder it ever had."

JAP BILLIARD STAR.

Will Start in Meet For Championship of World. New York, Oct. 25.—The 18-inch (two shots in) billiard tournament for the championship of the world will start on Nov. 11 at the Hotel Astor.
Among the probable entries that will try for the title are Calvin Demarest, Ora Morinister, Harry Cline, George Blossom, Albert Cutler, Clarence Jackson, of Chicago; Firmin Cassagnol, of France; and Koji Yamada, of Japan.
This will be the first time that a Japanese player ever competed here for a billiard title. It is reported by experts who saw Yamada, who the one that is an adept pupil with the ivory balls, and his best work is at the long carom shots.
Frank Walton, the patron saint of fishermen, is to be honored by a memorial window in Winchester cathedral, England.
Robert Mentzel of Dayton, O., who vanished 35 years ago, has just been found by his friends.

MICHIGAN TEAM IN POOR SHAPE

Some Players in Hospital and Others Showing Bad Form

Ann Arbor, Mich., Oct. 25.—Things are gloomy enough at Michigan this week to satisfy any one who cares to delve in darkness. Paterson is out at center and there is no telling just when he will return to the game as he has a badly sprained ankle. Coie McHale and Raymond still continue to play football at tackle that is off color. Barton has fallen woefully down at end and Pontius has been shifted from left to the right extremity because of his destines which make it possible for him to hear the signals when playing on the other wing. He belongs at tackle, however, but Yost has no one who can play end unless Tessin, who has just been promoted to the first squad and Torbet, the veteran show the class. To date they have not appeared to be varsity material. Yost has not decided on a running mate for Craig and the fight for right half still lies between Hughitt Collette, Campbell, Boyle and possibly Rushmead, now playing sub quarter with it almost certain that Boyle will be sent to the scrubs before the week he over if he does not improve. Yost sent Wright, Dinsley, Bloch, Wilson and Stone to the reserves this week and promoted Tessin and Pontius, a half, who may clear up the situation at right. Muser will have to be used at center if Paterson does not get in to form but there are no bells on him and his passing is not up to snuff as yet, though that may well be laid to his lack of experience at the position.
The coach has put the men through hard drills all of this week in order that he may get a line on the material before the Syracuse game. Barton had thought to have a place sure at end but his showing at handling his tackle Saturday was so poor that Yost has about decided that he will not do. His height has been a big help to him in grabbing forward passes but he does not seem to get in and fight the way he should. Michigan should have no trouble beating Syracuse if conditions were any ways near normal, but they are not and for that reason the score is not apt to be so very high.

MITCHELL NOT A BRUISER.

Has Not Had Scraps With Other Cincinnati Reds. Mike Mitchell of the Cincinnati Reds is a quiet, good-natured fellow, but some of the scribes who must fill space are always featuring him in team fights. Even that won't make him mad, though it doesn't please him.
"Honest," said Mitchell, "according to these reporters I have licked nearly every man on the Cincinnati club. Only recently they had me fighting with Bob Seicher, and the best part of it was that I whipped Seicher. Two years ago I got a decision over Larry McLeen in an awful battle. I have whipped several others, to hear the rumorsmiths and the knockers tell about it. But think of them crediting me with whipping Seicher and McLeen. How such things can get out I don't know. I am sure that any player who couldn't get along with smiling Bob, and his good-natured Larry, wouldn't be able to get along with his own mother."
"I never saw a man who would stand for more than McLeen. I have seen fellows pour a bucket of ice water on him while he would be sitting in the clubhouse after a game, and all the big fellows would do would be to toss a shoe or something at his tormentors. Yet they spot Larry as a trouble-maker and a bad man. He could be bad if he wanted to, but it isn't his nature to fuss."
"These fights between ball players are great to read and hear about. When a fight does take place no one ever gets to hear about it."

BIG FORCE IS DEFENDING THE CITY OF ADRIANOPLE

Continued From Page One.

situation in Greece that the Pan-Hellenic union has been preparing for a Greek war for years. The postal money order department for the past two years has been doing a heavy business in funds sent back from this country to Greece, and the past month, since the situation became strained in the Balkans, the amount of business has increased greatly.
"The situation that developed in the west, where heavy withdrawals by Greeks from the postal savings bank caused the local bank officials to appeal to Washington for financial aid, has not been apparent in any degree in Boston. There have been practically no withdrawals here that could be traced to such a source. This is attributed by those who are familiar with local conditions to the fact that the great majority of Greeks in Boston and Massachusetts do not maintain bank accounts.
"The great bulk of the 3000 Greeks in Greater Boston are artisans, working in factories, none of whom are in a financial position to maintain extensive bank accounts.
"This class of the Hellenic people are almost to a man members of the union and since the foundation of that worldwide organization, nearly a decade ago, have contributed largely to the fund that has been sent back to Greece for war purposes. They work for a weekly wage, live frugally, accumulate what spare money they can in a bank worn on the person, and when the accumulation is sufficient, it is forwarded to Greece.
"This state of affairs is borne out by the postal money order business."

DELAY GOT WOOD'S GOAT.

Report of Fisticuffs With O'Brien Not Substantiated. Much stress has been laid on an alleged fist fight between Joe Wood and "Buck" O'Brien, the probable reason for the "Smoky Boy's" poor showing in the seventh game of the world's series, but many baseball critics who say this contest are inclined to place the blame in another quarter.

Whether Wood and O'Brien actually engaged in fisticuffs after the battle that the veteran lost in New York is a question. From a number of supposedly reliable sources have come positive statements that there was a mixup in which Joe was knocked senseless while other persons actually tried to know the facts in the case so that nothing of the sort took place. Something actually did happen, however, in the presence of thousands of spectators that probably served to upset Joe. After he had gone to the mound to begin that seventh game, the "Rival Rooters" jumped their reservation in the left field, temporary stand and swarmed on the field evidently intending to hold some sort of a parade. Police and the Boston players rushed to the spot and headed off this demonstration and finally herded the crowd back where it belonged.

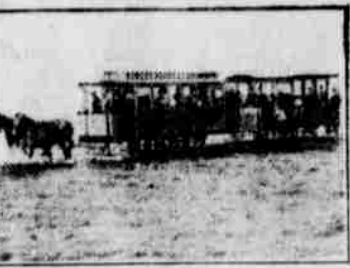

SECRET OF OASIS REVEALED

The opening of railway communication from a point near Luxor into the Libyan desert has rendered easy of access the celebrated oasis of Kharg, long regarded as a typical example of these isolated centers of life.
For some time past certain scientists have, while actually residing there, been studying the phenomena of springs, moving sands, wells, and so forth. It appears from their investigations that the Libyan oases are deep depressions in a lofty plateau that has a maximum elevation of nearly 2,000 feet, but that the bottom of the oases are only from one hundred to three hundred feet above sea level. They are underlaid by beds of sandstone, which are the sources of the water supply.

DISCOVERY OF 375 COMETS.

Statistics collected by Borely, the French astronomer, shows that since the sixteenth century 375 comets have been visible to the naked eye, with periodic and 18 have been seen at more than one return, and 55 have been visible to the naked eye, with 7 that could be seen in full daylight. Nearly two-thirds of the discoveries appear to have been made in morning before sunrise, more than half in the second half of the year. The French observatories have led in discovery, 87 of the comets having been first detected at Marseilles and 46 at Paris, but only 16 at Geneva, which has the next highest record, 15, at Florence, and 14 at the Lick observatory.
London practically is without frame buildings.
Chicago is to have an agricultural school as an addition to its educational system.
Bengal has rigorous smoke abatement laws.

NOVEL HORSE CAR-RAILWAY

At Langeoog, one of the string of East Frisian islands in the North sea off the coast of Germany, there is a decidedly novel tramway. As visitors can only reach this island from the mainland by boats at high water a horse tramway service has been established by means of which tourists are conveyed the intervening distance of about four miles when the tide is low as shown in the view.

WATER TURKEY OF FLORIDA

In the Indian river region of Florida are to be seen islands green with mangrove bushes down to the water's edge. The scene is animated by the presence of many water fowls—pelicans, gulls, water turkeys, cormorants and fish crows—feeding on the island, together with smaller numbers of gulls, terns, vultures, ospreys and man-of-war birds, swooping, skimming and sailing in the air above. In all this array of bird life there is no more curious and interesting creature than the water turkey, which is sometimes called the snake bird.

As the stranger gazes upon this scene he is sometimes apt to think he sees a queer snake wriggling out of the water several feet into the air. If he grabs his gun and fires it is probable that a part of the supposed snake will drop upon the water, while the other part takes wing and flies away.

The stranger wonders whether the snake dropped the bird or the bird the snake. The explanation is quite simple. A snake bird, or water turkey (Platania anhiang), swimming with its long neck only out of the water, had the snake in its bill and the snake was dropped when the gun was fired.
The water turkey has been called the most preposterous bird within the range of ornithology. "He is not a bird," says one authority, "he is a neck, with such subordinate rights, members, appendages and hereditary thereto appertaining as seem necessary to that end. He has just enough stomach to arrange nourishment for his neck, just enough wings to fly painfully along with his neck, and just enough legs to keep his neck from dragging on the ground; and his neck is light colored, while the rest of him is black."

BOBCAT ON EXHIBITION.

The bobcat shot this week at Abington by Dominick Vatro is on exhibition at the store of J. Vivian Jr. & Co. of Laurium. Those who have seen the exhibit which is in the center of an attractive hunters window prepared by Morgan Williams, claim that the animal is not a wildcat but a bobcat, the distinction between the two being principally the markings and the length of the tail.

LAURIUM

JUDGE O'BRIEN UPHOLD.

Supreme Court Ratifies Decision in Election Cases. The Iron Mountain Tribune-Gazette says:

The law firm of Cook and Pelham received a telegram this morning stating that the supreme court had upheld the decision of Judge O'Brien in the Iron county election case. Judge O'Brien ordered that the report of the canvassers be accepted as final in the contest between Ritz and Abbott, candidates for judge of probate, giving Ritz the nomination. Abbott appealed with the foregoing result.
Since the two cases are parallel, the decision of the higher court would also confirm Judge O'Brien's decision in the MacDonough-Waffen contest over the nomination for prosecuting attorney. Mr. Pelham of this city looked after the interests of both Waffen and Ritz, and prepared the briefs which went before the supreme court.

RECITAL TOMORROW NIGHT.

Fine Program Prepared for The Laurium M. E. Church.

The McCabe Memorial Bible class of the Laurium M. E. church has prepared a splendid program for the recital and entertainment to be given in the church auditorium tomorrow evening by Miss Anna Mitchell, the well known reader. Miss Mildred Romdahl has consented to assist with the program, by rendering some vocal selections and there will also be other numbers by local talent. It is expected the recital will be very successful and that there will be a large attendance.

RECITAL TOMORROW EVENING.

A recital will be given tomorrow evening in the parlors of the Laurium M. E. church, under the auspices of the McCabe Memorial class, by Miss Anna Mitchell, assisted by Miss Mildred Romdahl and Miss Pauli, a talented violinist. The program promises to be a varied and interesting one and well worth hearing. A large attendance is expected.

LAURIUM BREVITIES.

The Laurium Social Club has made arrangements to install a private telegraph wire and to receive the return of the national state and county elections on Nov. 2.

Mrs. Samuel Lawrence and son Isaac, the latter of Denver, are expected home today from Chicago, where they attended the wedding of Dorothy Lawrence.

Fred Swanson and John Leary leave today for Keweenaw. County points, where they will hunt.

Stephen Moyle, who left Calumet some time ago for Detroit to visit, has decided to locate there, having secured an excellent position.

James T. Fisher, Col. W. H. Thielman, J. Wesley Downins and Fred Duck are spending a few days at Foot-Jack hunting.

The ladies of the Altar society of the Sacred Heart church will entertain in the Sacred Heart auditorium this evening with a card party and entertainment. An excellent program has been arranged.

The ladies of the Altar society of the Sacred Heart church will entertain at a card party in the auditorium of the high school this evening.

Miss Florence Heaton of Chicago, a graduate of the Cook County Training school for nurses, is visiting with her mother on Ingoquo street.

Sister Priscilla, who has been visiting at the home of her parents, Mr. and Mrs. John Simmons of Osceola for the last six weeks leaves today for her home in Toronto, Canada.

Zemo for Dandruff

You Will Be Surprised to See How Quickly It Disappears. No more dirty curls from dandruff. Zemo stops dandruff. Apply it any time with tips of fingers. No smell, no smart. Zemo sinks into the pores, makes the scalp healthy, makes the hair fine and glossy.

Zemo is prepared by E. W. Rose Medicine Co., St. Louis, Mo., and is regularly sold by all druggists at 25¢ per bottle. But to enable you to make a test and prove what it will do for you, get a 25-cent trial bottle fully guaranteed or your money back at Express Pharmacy, Calumet; Laurium Pharmacy, Laurium.
